NATURE- INSPIRED SERIES

Drawing inspiration from nature, Lagoon takes the essence of creation and transforms it into a profound reflection on life. By observing the beauty of living things, we translate nature's elegant forms into a vision of life's possibilities. Lagoon calls this approach the "Biomimetic Nature Design Concept"—emulating nature through design.

Today, let us embark on a journey through Lagoon's natural ecosystem, guided by images and your imagination, to experience the harmonious blend of design and life.

WHALE

EN581 (EUROPE)

The gigantic and smooth body reflect warm colors. Its whipping tale stirs up waves. Singing at the frequency of 52 Hz, it just wants to be heard by its mates. Sinking into the sea gradually, the waves disappear, leaving with us fathomless silence. Sinking into the deep blue sea and reaching the seabed, it sees beauty beyond human eyes.

Designed in the image of the whale, it is neat and concise, merging into the environment harmoniously. The huge seat suits people of different physical builds. The ergonomic chair back design provides ideal support and extreme comfort. The flexing design of the chairback allows people to recline to soft support without getting tired after lengthy sitting.

CHLOE GARDEN

Bring the beauty of the Garden to your patio by adding fresh white hydrangeas and hanging wisteria with the Chloe Garden table. Chloe means "Green" in Greek. Hence, the Chloe Garden table was inspired by the growth of green buds and the renewal of life and energy. This bistro table is a perfect combination of structure and strength, made of durable polypropylene and can seat up to four people. It is the perfect piece for any outdoor setting. So enjoy casual cocktails and conversations on the patio with the Chloe Garden table!
